re Engineer - Tweetdeck

ss my interest in the Backend Engineer (TweetDeck) - London remote position. I am a self-  
end developer with an extensive background in this industry, experience in hardware orier  
nd also startups and startup agencies mainly in scripting/functional language(NodeJs). Wit  
ion in software development/business ideas, high standards to get the job done and also bu  
thing remarkable, I can provide your company with value.

se of my career, I have honed my backend development skills, relational, non relational dat  
m an astute problem-solver capable of prioritising and managing complex projects with pro  
minded.

I exercised development, collaboration, teamwork, and mentorship in contribution of team  
vements. I am open-minded and focused on new developments in my field. I have proven t  
oficiency in communication and collaborative work. I enjoy brainstorming and coordinatin

it worth to mentioning is that in 2 people (1 frontend 1 backend) we have redesigned and
